Sixty-third session
Item 130 of the provisional agenda*
Administrative and budgetary coordination of the United Nations with the specialized agencies and the International Atomic Energy Agency

Budgetary and financial situation of the organizations of the United Nations system

Note by the Secretary-General

Summary

The present note by the Secretary-General transmits to the General Assembly the statistical report of the United Nations System Chief Executives Board for Coordination in the budgetary and financial situations of the organizations of the United Nations system, the only system-wide report on these statistics. Until 1991 the report, in a slightly modified format, was produced by the Advisory Committee on Administrative and Budgetary Questions and was included in its annual reports on administrative and budgetary coordination of the United Nations with the specialized agencies and the International Atomic Energy Agency. Since 1991, six biennial reports have been produced under the auspices of the Administrative Committee on Coordination. The present tenth report is the fourth to be presented by the United Nations System Chief Executives Board for Coordination (CEB). The format and content of the tables have been slightly revised and improved since the last report (A/61/203 and Corr.1) on the basis of comments and suggestions formulated by the Fifth Committee of the General Assembly during the presentation of the last report in November 2006 and following extensive consultations within the CEB High-level Committee on Management. In particular, the tables on extrabudgetary resources have been expanded to provide a complete picture of the resources available to the organizations of the United Nations system from all sources.

All tables and data published in the present document, including some analysis of the figures presented, a number of charts on trends across recent years and snapshots on the distribution of extrabudgetary resources by country and by organization, are available on the website of the CEB secretariat (www.unsystemceb.org/).

Statistical report of the United Nations System Chief Executives Board for Coordination on the budgetary and financial situation of the organizations of the United Nations system (decisions 47/449, 53/459, 57/557 and 57/558)

1. The present report is the tenth of its kind to be presented by the United Nations System Chief Executives Board for Coordination (CEB) (formerly the Administrative Committee on Coordination).

2. The tables in the report are grouped under the following five subject headings:

(a) Regular resources (table 1);

(b) Extrabudgetary resources (tables 2-2A-2B);

(c) Total expenditure (table 3);

(d) Assessed contributions (tables 4-7);

(e) Working capital funds (table 8).

A. Regular resources

Table 1. Approved regular budgets (1996-2009). Table 1 shows, for each of the organizations appearing in the report that have a regular budget and for the years from 1996 to 2009, the amounts of the estimated expenditure actually approved under regular budgets plus any approved supplementary estimates, net of staff assessment. In that context regular budgets are broadly interpreted as regular resources, regardless of a corresponding assessment in the legal sense. Figures for biennial budgets are divided into two equal annual amounts.

B. Extrabudgetary resources

Table 2. Extrabudgetary resources from all sources (funds received 2002-2007, projected receipts 2008-09): summary by organization. Table 2 covers contributions (actual and projected) provided outside regular budgets (for which see table 1). Extrabudgetary resources include trust funds, technical cooperation and other non-regular resources. It also contains the value of contributions in kind.

Table 2A. Extrabudgetary resources: detail by organization and by donor (2002-2007). Table 2A shows voluntary contributions in cash and in kind received by the same organizations as in table 2, in the past three bienniums.

Table 2B. Extrabudgetary resources from Non-State donors (2002-2007). Table 2 B has been added in the present report in order to complement table 2 A and offer the complete picture of extrabudgetary resources available to the organizations of the United Nations system organizations from all sources. Data is broken down in four categories:

1. European Commission
2. Total top five non-State donors, Category 1: United Nations system organizations, the World Bank, the International Monetary Fund (IMF) and development banks
3. Total top five non-State donors, Category 2: other international organizations, non-governmental organizations, foundations, private companies, etc.
4. Total contributions from all other non-State donors (i.e. donors other than the European Commission or the top five donors in Categories 1 and 2 above)

C. Total expenditure

Table 3. Total expenditure. Table 3 shows expenditure (2002-2007) against regular budget resources (table 1) and against extrabudgetary resources (table 2), including trust funds, technical cooperation and other non-regular resources. Also included is expenditure against resources in connection to which the organization is the executing or implementing agency. Expenditure in kind is indicated separately. Reported amounts are extracted from the audited financial statements of the corresponding period.

D. Assessed contributions

Table 4. Assessed contributions (1996-2009). Table 4 shows the total assessments payable by members of organizations under approved regular budgets. Assessed contributions relating to extrabudgetary activities, such as certain peacekeeping operations of the United Nations, are not included.

Table 5. Percentage assessments (2008-2009). Table 5 shows, for each of the members of the organizations listed in table 4, the percentage amounts of the assessed contributions payable under approved regular budgets in 2008 and 2009.

Table 6. Assessments voted and received (2006-2007). Table 6 shows, for the members of the organizations in the preceding tables, the assessments payable under approved regular budgets and the amounts collected in relation to current assessments and arrears in each of the years 2006 and 2007. Please note that in prior reports, data was provided covering United Nations peacekeeping operations, but this has been eliminated from this table. Peacekeeping data may be found in the Secretariat's monthly reports on status of contributions (ST/ADM/SER.B).

Table 7. Collection of assessed contributions (2006-2007). Table 7 shows, for each of the same organizations as in the preceding tables, the percentage of the current year's assessed contributions under approved regular budgets that was collected at 30 June and at 30 September of the two most recent years for which such data is available (2006 and 2007). The table also shows, by organization, the total amount of all assessed contributions under approved regular budgets that was outstanding at 30 September of the same two years.

E. Working capital funds

Table 8. Working capital funds. Table 8 shows, for the same organizations as in the preceding tables, the level of working capital funds in relation to the level of approved regular budget estimates for the period 2008-2009.

3. The footnotes accompanying the tables in several cases clarify individual figures and provide general explanations relevant to the scope and interpretation of the data presented.

Notes to table 1

(a) This table shows the amounts of the estimated expenditure actually approved under regular budgets plus any approved supplementary estimates, net of staff assessment. No adjustments are made in the figures. In this context, the term "regular budget" is broadly interpreted as "regular resources" regardless of a corresponding "assessment" in the legal sense. Where the estimates approved make provision for undistributed reserve, the amount is excluded from the figures, so that the comparisons relate to effective working budgets. Estimated expenditure for the support of extrabudgetary activities is included where and to the extent that it is integrated into the regular budget. Estimated budgetary reimbursements to accounts drawn upon to finance expenditure under the budget or supplementary authorizations are reported in the period of reimbursement. Figures for biennial budgets are divided into two equal annual amounts; supplementary estimates are reported according to the years to which they relate.

(b) Where budgets are denominated in a currency other than the US dollar, the amounts reported are translated into the dollar at the United Nations operational rate of exchange at the end of each year, except for the 1996 and 1997 figures, which have been translated at the December 1997 rate. Exceptions were made in the following cases, where exchange rates as reported in the financial statements were used:

(1) Swiss francs to the dollar:
- For UPU: 1996-1997 - 1.16; 1998-1999 - 1.42; 2000 - 1.60; 2002-2003 – 1.68 (UN rate for December 2001; 2004-2005 – 1.30; 2006-2007– 1.21; 2008 - 1.14

(5) Canadian dollar to the United States dollar (ICAO): 2008-2009 – 1.15.

(c) UNHCR Data for 2006-2007 has been modified by UNHCR in survey 2008.

(d) UNDP UNDP – regular budgets refer to untied voluntary contributions to UNDP and exclude trust funds, cost sharing contributions or any other extra-budgetary contributions.

(e) IMO The figures used in Table 1 are regular budget figures for assessment purposes only, they do not include other programme funds. These amounts are converted into US dollars using the budget assumption rate quoted above in (b) 2.

(f) IFAD IFAD's budget is approved annually, therefore no figure is provided for 2009. A significant part of the underlying expenditures is incurred in Euro. These amounts are translated at the budget exchange rate set at the beginning of the year.
Figures provided include just the so called IFAD "support budget", including the administrative, monitoring/evaluation, audit and programme support costs of the organization. The remaining budget of IFAD is embedded in the so called "Programme of Work", containing the resources granted to the organizations implementing projects on the field. This repartition is inherent in the nature of IFAD as financial intermediary organization. For completeness, we report the financial amount of the IFAD "Programme of Work" in USD: 1996: 455.300.000; 1997: 450.000.000; 1998: 459.000.000; 1999: 472.770.000; 2000: 482.200.000; 2001: 393.700.000; 2002: 450.000.000; 2003: 450.000.000; 2004 462.500.000; 2005: 500.000.000; 2006: 550.000.000; 2007: 605.000.000; 2008: 650.000.000.

(g) UNIDO Net of reimbursable expenditure.

(h) UNIDO Data for 2006-2007 has been modified by UNIDO in survey 2008 (Net approved expenditure converted at budgeted rate of exchange).

(i) IAEA Calculated at the following Austrian shilling-dollar exchange rates (Euro-dollar exchange rates for 2002-2009) under the split appropriation and assessment system introduced in 1986: 1996-2001 – ATS 12.70; 2002-2005 – Euro 0.9229; 2006-2009 – Euro 1.00. Subject to variation according to operational exchange rates between these two currencies.

(j) IAEA Subject to approval by the General Conference.
From 2006 onwards the amounts are calculated as follow: USD Portion + EUR portion / Average Actual UNROE = Budget in USD
$58,688,000 + €212,112,000.00 / 0.8003 = $323,721,944
$57,945,000 + €222,967,000.00 / 0.7325 = $362,317,252
$56,754,666 + €232,074,716.00 / 0.6540 = $411,608,972
$57,600,841 + €236,035,945.00 / 0.6540 = $418,512,072

(k) UNWTO UNWTO (Tourism) introduced a single currency budget in Euros in 2002-2003, which was converted at the January 2000-September 2001 average rate of exchange of US$ 1 = Euros 1.0976. In : 2004 (Euro 0.737); 2005 (Euro 0.845); 2006 (Euro 0.760); 2007 (Euro 0.686); 2008-2009 (Euro 0.686). Subject to variation according to operational exchange rates between these two currencies).

(l) UNFCCC Kyoto Protocol entered into force on 16.02.05; the part of the approved core budget relating to the Kyoto Protocol Interim Allocation was pro-rated for 10.5 month in 2005. The programme budget for 2006-2007 and for 2008-2009 is apportioned at 63.2 per cent for the Convention and at 36.8 per cent for the Kyoto Protocol.

Per the Headquarters Agreeement the Government of Germany makes a annual fixed voluntary contribution of € 766,938 (formerly DM 1,500,000) to the core budget of UNFCCC, except in 1996 because the secretariat was still located in Geneva at that time. The contribution is converted into US dollars at the UN exchange rate prevailing at the date of deposit.

Notes to table 2

(a) This table covers all contributions provided by state and non-state donors (including World Bank, European Commission, development banks, private companies, foundations, etc.) outside regular budgets (for which see table 1). Extra-budgetary resources include trust funds, technical cooperation, and all other non regular resources, including funding received through inter-organization arrangements. Extrabudgetary resources should also separately include the value of contributions in kind when these are separately recorded as income in organizations' financial statements. Contributions received in currencies other than United States dollars should be translated into dollars at the exchange rate judged most appropriate by the organizations concerned. When available meaningful projections for the biennium 2008-2009 are reported.

(b) UN UN data for 2002-2005 combines XB contributions to trust funds and to peace-keeping operations, excluding contributions for office space etc made under SOFA (Status of Forces Agreements). A separate line has been added in this new version of the survey to record separately peacekeeping-operations-related resources. XB contributions to PK are relative to financial periods as follows: for 2006: 1 July 2005 - 30 June 2006; for 2007 1 July 2006 - 30 June 2007

(c) UN See note b) above

(d) UNHCR Income is total contributions received excluding extra budgetary in-kind contributions

(e) UNDP Figures include only 'UNDP Other resources' and not 'UNDP regular resources'

(f) UNFPA Figures include only UNFPA "Other Resources" plus interest earned on those funds. It does not include UNFPA regular resources

(g) ICAO Contributions in kind are not included as income in ICAO's financial statements and are reported in the Notes to the Organization's Financial Statements. Reliable projections of extrabudgetary resources for 2008 and 2009 could not be made

(h) IMO Includes annual approved allocation from the Printing Fund towards IMO's Integrated Technical Co-operation Programme which is converted into US Dollars at the average budgeted rate

(i) WIPO The exchange rates used are those indicated in notes to Table 1

(j) UNIDO Including funding received through inter-organization arrangements: 2002-$10,543,600 -, 2003-$7,744,600 -, 2004-$7,544,100 -, 2005-$6,429,500 -,2006-$6,916,200 - 2007-$10,364,100 - Figures from 2002 to 2005 have been restated

(k) IAEA Contributions in kind are not included as income in IAEA's financial statements and are reported in an Annex of the Agency's Accounts document. Meaningful projections of extrabudgetary resources for 2008 and 2009 cannot be made

(l) UNFCCC The extra-budgetary resources include a fixed amount annually of € 1,789,522 (formerly DM 3,500,000) as agreed under the Headquarters Agreement with the Government of Germany. This amount is converted into US dollars at the UN exchange rate prevailing on the date of deposit

(m) IOM Early estimate about USD 611,000,000 - Report due in September 2008

Notes to table 2A

(a)	This table covers all contributions provided by Member States outside regular budgets (for which see table 1). Extra-budgetary resources include trust funds, technical cooperation, and all other non regular resources. Extrabudgetary resources should also include the value of contributions in kind when these are recorded as income in organizations' financial statements. Contributions received in currencies other than United States dollars are translated into dollars at the exchange rate judged most appropriate by the organizations concerned.
(b) UN	Figures include voluntary contributions to UNFICYP, UNIKOM and other peace-keeping operations.
(c) UNRWA	Totals include $15.1 million and $17.0 million as contributions in kind for 2002 and 2003 respectively, and $19.9 million and $15.5 million for 2004 and 2005 respectively.
(d) UNHCR	Includes $1.9 million, $1.2 million, $1.4 million and 6.6 million as contributions in kind for 2002, 2003, 2004 and 2005 respectively. Sources of funds: Annual Budget, Supplementary Budgets and Junior Professional Officers.
(e) UNFPA	Includes co-financing contributions, third party procurement and JPO programme contributions.
(f) WFP	Includes contributions in kind of $ 432 million in 2004 and $ 537 million in 2005.
(g) ICAO	Includes Technical Co-operation Projects, AVSEC, IFFAS , USOAP and other Trust Funds.
(h) PAHO	PAHO amounts for 2002 and 2003 do not include net refunds to country donors.
(i) WIPO	The exchange rates used are those indicated in notes to Table 1.
(j) UNIDO	Negative amounts for some donor countries represent refunds/reprogramming of remaining balance of contributions.
(k) UNWTO	(1) Excludes interest and miscellaneous income; (2) Negative amount for 2006 SNV donor represent refunds of bank interests.
(l) ITC	Includes technical cooperation trust funds and counterpart contributions.
(m) UNEP	Includes technical cooperation trust funds and counterpart contributions.
(n) UNODC	Contributions received from Hong Kong are included under China.
(o) UNFCCC	The extra-budgetary resources include an annual fixed amount of € 1,789,522 as agreed under the Headquarters Agreement with the Government of Germany. This amount is converted into US dollars at the UN exchange rate prevailing on the date of deposit. The European Union as an entity is a Party to UNFCCC in its own right.
(p)	Following the declaration of independence of Montenegro in June 2006, Serbia and Montenegro are shown as independent Member States. Consequently, contributions for 2002-2005 are recorded as from "Serbia and Montenegro", contributions for 2006 and 2007 are usually recorded separately.

Notes to table 2B

(a)

This table shows detailed information regarding extra-budgetary contributions received by UN system organizations from non-state donors. Requested data is broken down in four categories:

A) European Commission
B) 5 major non-state donors - Category 1: UN system organizations, World Bank, IMF and Development Banks
C) 5 major non-state donors - Category 2: other International Organizations, NGOs, foundations, private companies, etc.
D) Total contributions from all other non-state donors (i.e. donors other than the EC or the top 5 donors in CATEGORIES 1 and 2
The sum of these four groups E=(A+B+C+D) gives the total of extrabudgetary resources received from non-state donors.

In the previous editions of this survey data shown in table 2B was presented in table 2A, section B.

Any discrepancies regarding 2002-2005 data between past editions of this report and the amounts shown in the current version are due to corrections made by organizations upon review of the figures.

(b) UNFCCC Public donations, registration and accreditions fees from other entities. Registration and accreditation fees relate to the Clean Development Mechanism (CDM) under the Kyoto Protocol.

Notes to table 3

(a) This table shows expenditure against regular budget resources (table 1), as well as against extra-budgetary resources (table 2), which include trust funds, technical cooperation, and other non regular resources. Also included is expenditure incurred by the executing or implementing agency on behalf of funding organizations. Expenditure in-kind is indicated separately, as reported in the audited financial statements.

Amounts are indicated as appearing in the total expenditure line of the financial statements. Any departure from the financial statements is explained in notes.

(b) UN A separate line has been added in this new version of the survey to separately record peacekeeping-operations-related expenditure. PeaceKeeping financial periods are as follows: for 2002: 1 July 2001 - 30 June 2002; for 2003:1 July 2002 - 30 June 2003; for 2004: 1 July 2003 - 30 June 2004; for 2005: 1 July 2004 - 30 June 2005; for 2006: 1 July 2005 - 30 June 2006; for 2007: 1 July 2006 - 30 June 2007.

(c) UNDP RB = Regular resources; XB = RSS plus other resources and funds.

(d) UNFPA RB expenditures are those incurred under the Biennial Support Budget which is approved by the Executive Board. It also includes other expenditures funded from regular resources. XB includes all expenditures under "Other Resources" (co-financing, JP O Programme and Procurement Services).

(e) ICAO RB = Regular Programme actuals; XB = TC plus other Trust Funds and other resources.

(f) IMO RB Expenditure is converted into US dollars using the actual annual average UN exchange rate as follows, 2004 - 1.821, 2005 - 1.825, 2006 - 1.828, 2007 - 2.001

(g) WIPO The exchange rates used are those indicated in Table 1.

(h) IFAD Total expenditure relates to operational expenses i.e. excluding grants, HIPC and loan allowances, fair value and ASMC charges. Total expenditures relate to IFAD and all supplementary funds included within the Consolidated Financial Statements. RB relates to IFAD and includes Italian Government expenditures which are fully reimbursed, and multi-year budgetary expenditures as well as one-time costs, and investment related expenditures. These expenditures therefore exclude cash flows relating to the Programme of Work loans and grants.

(i) UNIDO RB and XB actual figures in EURO converted to USD at annual average UN rate of exchange applicable for the respective years. 2006 1€ = $0.80158; 2007 1€ = $0.73283

(j) IAEA The expenditure figures represent the amounts as per audited financial statements.
Please note that effective 1 January 2006, the International Atomic Energy Agency's (IAEA) functional currency for the regular budget is the euro.
2006 and 2007 figures represent the IAEAs total expenditures expressed in USD at the average exchange rate experienced during the financial year.
Extrabudgetary figures for 2006 and 2007 includes the Technical Cooperation Fund

(k) UNWTO UNWTO introduced a single currency budget in Euros in 2002-2003, which was converted at the January 2000-September 2001 average rate of exchange of US$ 1 = Euros 1.0976. In : 2004 (Euro 0.737); 2005 (Euro 0.845); 2006(Euro 0.760); 2007 (Eur 0.686).

(l) UNODC UNODC's approved regular budget resources come from the United Nations Headquarters, New York, and are therefore not shown separately.

Notes to table 4

(a) This table shows the amounts of assessed contributions actually payable by Governments to finance approved regular budgets and any supplementary estimates. No other financing is reported. Where organizations have an undistributed reserve, the corresponding amount of contributions is excluded from the figures. The effects of the operation of provisions concerning tax equalization funds are not taken into account. Except where stated otherwise, assessments under budgets denominated in currencies other than United States dollars are translated into dollars at the United Nations operational rate of exchange at the end of each year, except for the 1996 and 1997 figures, which have been translated at the December 1997 rate. Differences between the amounts shown on this table and the total amounts shown on table 6 relate mainly to amounts actually assessed for tax equalization funds (which are included in table 6) and to contributions assessed on a member State that ceased to exist. In the case of IAEA, the difference relates to the valuation of Austrian shilling contributions in table 6.

(b) Provisional.

(c) ILO Contributions are payable in Swiss francs under the assessment system introduced with effect from 1990. The rates involved (Swiss francs to the dollar) are: 1996-1997 - 1.16; 1998-1999, 1.46; 2000 -2001 - 1.53; 2002-2003 - 1.77; 2004-2005 - 1.34; 2006-2007 - 1.25.

(d) FAO Since 2004-2005, assessments are billed in US$ and Euros under split assessment arrangements, and therefore the amount in the table is the consolidated amount.

(a) This table shows the percentage of contribution by each Member State to the assessed budget of each organization. If the percentage assessment varies between the two years of a biennium this is indicated in a separate footnote.
A blank cell opposite the name of a country indicates that this is not a contributor or other entity to the organization under the scale of assessments.

(b) Puerto Rico is an Associate Member of WHO, PAHO and UNWTO (Tourism). Hong Kong-China, Macao-China, Netherlands Antilles participate in WMO as Associate Members. Aruba, Hong Kong-China, Macao-China, Netherlands Antilles participate in UNWTO as Associate Members. Madeira and the Flemish Community of Belgium are also Associate Members.
Cayman Islands, Aruba, Macao-China, Netherlands Antilles are Associate Member of UNESCO. Faroe Islands, Hong Kong and Macao are the Associate Members of IMO.
